VOL. XVII NUMBER 44 AND 45 1970-1971

INDEX

(For Book Reviews, see CONTENTS*)*

All entries in the American Alpine Club Journal Index are arranged alphabetically. Subject entries are indicated by capital letters. Mountains are entered by their proper name; quotation marks indicate those names which are unofficial. The range, U.S. state, Canadian province or territory or foreign country is given in brackets where known. All mountains are also indexed under the range and the geographical location. With the exception of Alaska and the Canadian territories, states and provinces are not cross indexed. Latin American Cordilleras are filed under Cordillera. The words mount, mountain, peak, pico, cerro, etc. are generally omitted. The names of expedition personnel are given except in foreign expeditions where only the names of the leaders are included. Mc and Mac are filed as if spelled Mac. Personal names are filed ahead of geographical names where they are the same.

Earlyn Church, *Indexer*
